A. Explanatory Notes pursuant to Malaysian Financial Reporting Standards ("MFRS") 134, Interim Financial Reporting

A1. Basis of Preparation

The interim financial statements are unaudited and have been prepared in accordance with the requirements of MFRS 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa").

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 December 2017. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 December 2017.

A2. Changes in Accounting Policies

The financial statements of the Group for the financial period ended 31 March 2018 are the first set of financial statements prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") Framework. The date of transition to the MFRS Framework was on 1 January 2017.

The Group has consistently applied the same accounting policies in its opening MFRS statement of financial position as at 1 January 2017 and throughout all comparable interim periods presented, as if these policies had always been in effect. Comparative information in these interim financial statements have been restated to give effect to these changes and the financial impact on transition from FRS in Malaysia to MFRS as disclosed as follows:

MFRS 9 Financial Instruments

MFRS 9 replaces the guidance in MFRS 139, Financial Instruments: Recognition and Measurement on the classification and measurement of financial assets and financial liabilities, and on hedge accounting.

In order to measure the consequences of this new standard, the Group has reviewed the business model corresponding to the different portfolios of financial assets and of the characteristics of these financial assets.

In respect of impairment of financial assets, MFRS 9 replaces the 'incurred loss' model in MFRS 139 with an "expected credit loss" (ECL) model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt instruments measured at fair value through other comprehensive income, but not to investments in equity instruments.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. MFRS 15 will supersede the current revenue recognition guidance including MFRS 118 Revenue, MFRS 111 Construction Contracts and the related interpretations when it becomes effective.

The core principle of MFRS 15 is that an entity should recognise revenue which depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Under MFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

The following reconciliations provide an estimate of the expected impact upon initial application of new MFRS Framework, MFRS 15 and MFRS 9 on the financial position, profit or loss and other comprehensive income of the Group.

Property development & property management

Property development projects were on track and progressed as scheduled. Revenue was mainly contributed by residential property developments in Pearl City, Simpang Ampat which accounted for approximately 98% of the total revenue in the segment for the current quarter in review.

The lower revenue in the current quarter as compared to the same quarter of the preceding year was mainly due to fewer on-going projects, with the Group adopting a cautious approach given the overall market condition.

The Group recorded new property sales of RM33.74 million in the current quarter (same quarter of preceding year 2017: RM31.99 million).

Investment holdings
